

# EVDA-20

# Double chamber automatic download vacuum packing machine

Meat slaughterhouses

Factories

**Ideal** for all kinds os products of different shapes and sizes... thanks to the large size of the bells.

**Suitable** for big productions.

Recommended for factories of sausages, fish, cheese making factories, packaging centers, caterings...

# The **EVD-A-20** is ideal for:

Pasta & pizzas

Double chamber automatic download vacuum packing machine

EVD-A-20. Automatic expelling of product at the end of the vacuum packing cycle.

EVD-A-20. Regulation of conveyor belt height

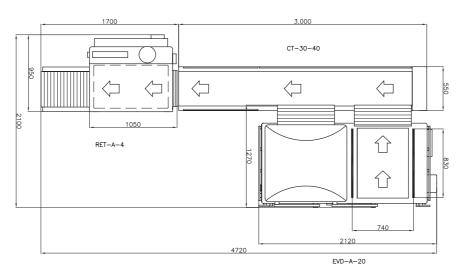

EVD-A-20. Easy removal of the conveyor belt for cleaning.

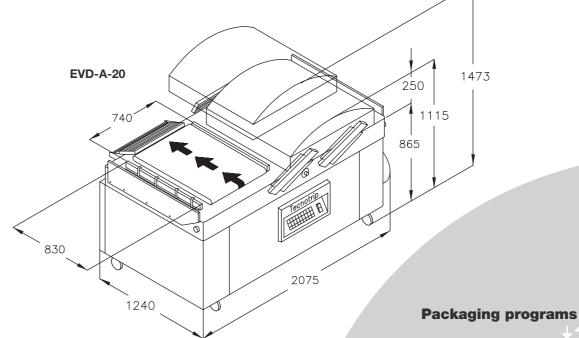

RET-A-4 / RET-A-4-11. Raising of the conveyor belt to facilitate cleaning of interior

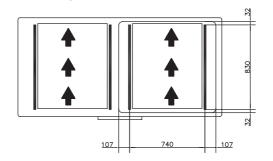

# **Automatic packaging and shrinking line**

EVD-A-20 + RET-A-4/11 + CT-300/400

**Sealing bars** 

1473

Gas

## **Sealing options**

Simple sealing + excess cut

adjusted

adjustable double sealing

Ideal for fully automatic vacuum packaging lines, as it is fully synchronized with conveyor belt and shrinking tanks...

With the elevation of the conveyor belt integrated into each chamber, it will be selected whether or not products should be automatically transported out of the machine. The conveyor belt, synchronized with the packer, allows products to be moved in to the shrink tank. A cell located at the entrance of the tank, detects the passage of the packaged product and iniciate the shrinking cycle: entry, immersion, draning and ejection of the product..

At the end of the tank, it is possible to incorporate a bag dryer mod.TSA

### **Features**

Manufacture according to CE standard Soldering independent regulation

### **Equipment**

Pump: 200/300 m<sup>3</sup>/h Digital programmer: CD system Sealing: SS, SC, SD Gas
